Best Affordable Top Web Design Package:

Luxury Dynamic Website with easy Admin Panel for future editing by owners themselves.

Complete Website Package with free Domain Hosting.

Feature-rich High Quality Web Design Fee USD \$150 only!

Our general business corporate or company websites are best suited for admin panel editing, pictures galleries and banners. We develop top quality dynamic websites with admin control panel, flash banner, and contact inquiry form, up to 10 pages and up to 20 images. In a dynamic website, you can add unlimited pages, images and videos from website admin panel. Free domain and hosting. All this is in small fee of USD \$150 only. USD \$140 without domain hosting.

Or you can select any Static Html, Flash or Dynamic website over internet or from any themes or templates and we will develop similar but unique website for you. However, you need to get quote for such custom development or any custom websites for any specific design or additional features.

- 1- Five to fifteen pages including 20 images.
- 2- About Us, Services, Products and Contacts Us pages.
- 3-Website includes Logo, Flash banner and contact form.
- 4- Free domain and latest 1 GB US based cPanel hosting.

5- Three Email accounts, POP and Web mail access

6- In a dynamic website, add unlimited pages, images and videos from website admin panel.

7- Guaranteed website delivery in 5 to 10 days. Urgent website completion option in 2 to 5 days exist with extra fee.

You need to pay some advance to start and remaining during completion process and your website will be ready fast within 3 to 10 days guaranteed. Payment options are provided on our website. You are welcome to visit us or settle everything by email or phone.

CUSTOM WEB DESIGNING: CUSTOM WEB DEVELOPMENT.

Select any Static HTML, Flash or Dynamic website over internet or from any themes or templates and we will develop similar but unique website for you.

Websites cannot be copied but we can develop similar but unique Design. It is amazing introductory offer.

These website types include Static, Flash and Dynamic websites. Custom design and development prices varies greatly so you need to take quote for any such custom design and development. Usually custom HTML and Flash websites are comparatively cheap.

Trust, Privacy, Security and Secrecy of our Services.

We provide maximum security, secrecy and privacy in order to save you from all types of hacking. I myself manage website's hosting domain panels and other IT services login information (username & password) of many of my clients or employers from around the world. They are in my safe custody (safekeeping) as a trust. There are many people who know little about Information Technology and security so we keep their websites, hosting and all other information in safe hands.

Designing & Support Services in All Language of the World:

Now language is no problem. Although our preferred language is English but we design and develop websites in all major languages of the world. Similarly, we provide support services in all languages. Please note that we charge comparatively little higher fee for non-English websites.

Website Maintenance, Updates

Support for Small Businesses

This includes updating your website content including text and/or images, videos, updating the site structure, updating hyperlinks on your website, and changing styling (color and format), upgrades for software like WordPress, Magento and Joomla. Kindly note that new pages being added to the website will be charged extra. Dynamic businesses require to revise some or all of your web pages over time, as well as adding additional pages according to your business needs. The difference among the plans is the number of updates that will be done per month. Each change/update request you make counts as 1 change. For example, if you ask for one page text to be updated and ask for background colors to be changed, that counts as 2 changes.

Fee: Fixed website maintenance fees starting at just \$30 per month

Plans	Basic	Small Business	Professional	Enterprise
Fees	\$30	\$50	\$75	\$99
Updates/Month	3	6	9	12
Delivery Time	3 Days	4 Days	4 Days	3 Days

We offer personal, friendly service, 20 years experience, many satisfied customers. Therefore, we are committed to cool and long-term collaborative partnerships. Some websites need daily updates while others only need periodic maintenance. Websites are not intended to be static even if they are static html website. Fresh websites get more traffic. Do your website use a quick update? Do your website need something fixed? Our website maintenance and website support services can provide you reliable and affordable website update solutions, delivered in a timely and professional manner. Whether you're a small business or a corporate or government institution, we can respond to your requirements and provide you with the support you need. We deliver your project on time with quick email support.

With a quick email or phone call, questions are answered and tasks are completed correctly and quickly by a talented professional and experienced specialists.

We offers you affordable website maintenance to existing websites and make whatever changes are needed as and when required. By outsourcing your website maintenance, you are free from the need of regular employees.

Social Networking Community Website Design

Social networking online community website design & development

We develop feature rich social community websites. By using social community websites, you can build your own fully grown up communities. These are the great features which we can provide in social community websites. Most of the people are familiar with networking on Facebook, so many features similar to Facebook are added.

Fee: USD \$270 Only!

Administration

* Our Admin Control Panel give site Admin full control of their social network from the content that is added to the activity of what is going on behind the scenes.

Members Profiles

* A members profile is their personal page on your social network, which has all the information they want to share with the community as well as all the content they are sharing on your social network.

Dashboard

* The dashboard is the first stop for your users and is where they can keep track with what is going on with their friends and the community at a quick glance.

Friends

* Our product provides the ability for your users to befriend other members they may or may not know allowing your community to create a true social network.

Mail

* Your users can get in touch with other members by sending emails to all of the contacts.

Videos

* Your users can upload videos direct from their computer or quickly share videos from sites like YouTube or MySpace.

Music

* Members can upload and share their songs and put them into albums and control the specific genre they are in. Your members can listen to these songs/albums and add them to their own profile.

Instant Messenger

* Our instant messenger gives your members the ability to instantly chat with other members.

Blogs

* Your members can share their thoughts and insights by writing blogs to share with the community.

Photos

* Your members can upload photos to a public gallery or to their own set of photo albums. While uploading photos your members can decide the privacy level of who can view their photos online.

Forum

* Our forum brings your entire community into one place where they can share their thoughts on any topics and giving control to site admin to moderate content.

Ad Campaigns

* You can monetize your social network with our advanced ad campaigns including Google AdSense, affiliates and third party advertisements.

Polls

* Your members can create polls for the entire community or for just a set of their friends.

Bulletins

* Bulletins are notes shared between your users and their friends to keep them up-to-date with

what is going on.

Groups

* When your users create a group they create a community within a community as it includes the top features found on the your community fully integrated into it and giving them full Admin powers.

Classifieds

* Your users can create a listing in your Classifieds if they want to give away or sell something.

Announcements

* Admin can write announcements for all the members on the site to see from either their dashboard or by visiting the announcement section.

Account & Privacy Management

* We have grouped all the important privacy and account settings in a convenient location so your users can easily control these settings at any time with ease.

Newsletter

* You or your staff may need to send out information to all your users or a specific user group and this can be done by sending out newsletters via emails or internal private messages.

Emoticons

* Your users can use emoticons throughout the site to express how they feel.

Theme Management

* We give you full control to change the entire look of your site from the HTML layout to the CSS styling and all of this can be done from the comfort of the Admin Control Panel.

Multilingual

* Your social network can become an international community once it grows as we provide the ability to display not only English but many other languages.

Activity Feed

* Our activity feed keeps your members up-to-date with what their friends or the community with what they have recently been up to. Designed to work like Facebook's Live Feed.

Subscriptions

* When you create subscriptions you can create custom user groups that can do special things other user groups cannot do and you can charge for these features. With this feature you can start making money.

User Group Management

* When using a feature on the site it is usually tied into a user group, which in return gives you the control with what each user group can do.

Events

* Your users can keep track of all the events they are hosting or plan on attending.

Invite

* The easiest way for your community to grow is for your members to invite their friends. It's a free and fast form of advertising on a more personal level.

Quizzes

* Quizzes gives your users the ability to create tests for other members or just their set of friends.

RSS & Social Sharing

* The ability to share information with others is very crucial today and we provide RSS and social sharing to your members so they can spread your sites content across many other sites.

SEO Friendly

* When viewing an item like a blog or photo it requires a unique identifier and we use SEO (Search Engine Optimizations) practices to keep content on top of search engines.

Logo Designing, Company Logos Design, Business Logos

We provide logo designing services. We develop high quality company logos, business logos, business branding, company business trademarks and cheap logos at affordable price.

Logo Design Fee: USD \$45 Only! Three Unique Designs: \$60, Seven Unique Designs: \$99

Logo is part of web development package provided free with a website. We assure to provide you the best quality high definition logo suitable for your business needs. If you need logo without web design package then for high quality logo designing our fee is only USD \$45 for general standard company or corporate logo. Please send examples of logos or similar design or any idea about the logo like text you want to print, text and background colors or fonts. You may ask for revision once our first logo is presented. For logo designs, you can also see logos on our website and send us design number you need. Logo will be delivered within 24 hours. However, logo may be delivered with 5 hours on the payment of urgent fee which is double of normal fee. Your business needs a corporate logo design. Your corporate logo design should be a clear expression of your business. It may be your first step or the next step in your company development. Your corporate logo design is an important part of your business identity. It communicates to your prospective customers about you and your business and services. First impression is important, and your logo will inspire basic concept of your business.

We develop professional logo design. Most businesses need the help of professional corporate logo designers. We combine professional graphic design with your unique taste and desires. We can design Logos in many pictures formats including .jpg, .png, .gif, .tif and many other formats. We understand that a good logo should not only be beautiful but functional. Your business image depends on a logo design that is unique and memorable. We understand the specific functionality of quality logo design. We work in strict deadline. Once you send information about your company, we start work and complete work in time.

Mobile Phones Compatible Websites

Responsive Web Design

Websites for Mobile Phones and Devices, Android, Nokia phones, iPhone, Blackberry, Smartphone iPad Compatible Websites

Mobile Phones Compatible Websites Web Design & Development

Over the past years, mobile phones web usage has greatly increased to the point that businesses and people can no longer afford to lose mobile based customers. We design and develop all types of mobile phone supported and compatible websites. We also convert or transform existing websites into mobile phones browsers compatible websites.

Since mobile phones occupies a significant proportion of global web browsing so your business need mobile supported or compatible websites. Shift is being hastened by faster mobile broadband connections and cheaper data service. However, a large increase has also been seen in developing nations where large numbers of common people are learning internet browsing over mobile phones internet connections. So do not miss these large numbers of people and let us develop mobile phone compatible websites for you.
